And We Move (Pause)
2008-9
Series of 5 inkjet cotton fabric prints with digitized embroidery
Published by SOLO Impression
in an Edition of 3.
32.5 x 42 inches
\$ 18,000.00
\$3600. individually

"The prints are stills from the video And We Move which capture the conductor's body in action and become moments of music frozen in time: music and movement distilled. On the bottom portion of each print, the score of Smetana's composition is printed continuously in a long horizontal band extending through all five images while the audio levels of the video are translated into a line of embroidery that runs between the still and the score, visually suturing the distinct elements together. The artist's intention is to create a pause in the movement of a conductor's action and contrast it with the musical language of the compositional score as well as the sampling of the audio track that is a record of the actual performance."*
